

# Makrodaktylia palców stopy

## Kod Orpha: 295047 Kod OMIM:

### Opis choroby \*

#### Definicja

A rare non-syndromic limb overgrowth characterized by isolated congenital enlargement of some or all tissue elements of one or more digits of a foot. Enlargement may be progressive with disproportionate or static with proportionate growth and can be unilateral or bilateral. It typically occurs within a peripheral nerve territory, with the nerve itself being elongated, as well as increased in diameter.
